CHAIN STITCH SEWING MACHINE

SPRING OR PNEUMATIC / SINGLE OR DOUBLE NEEDLE DOUBLE TRANSPORT SEWING MACHINE

- This machine is developed only for Big, Bag industry.
- Used for sewing the top panel of a big bag to main body and for sewing of baffle panels.
- Designed to create higher efficiency thanks to the higher rpm power (RPM 2200)
- The problem is removed that needle touches the looper which occurs at similar machines.
- Filler cords are standard from above and below.
- Heat cutting can be installed if required.
- Low spare part consumption.
